

Query at t_q : (US, **consult**, ?) true answer: **RU**

bold edges: the events on the dyad (US, RU), in both directions; thin edges: the rest of the subject's neighbourhood. No **consult** edge ever links US and RU.

relevance of each snapshot to the query under the two readings of the history:

triple view: zero on every snapshot, RU never appears under consult

dyad view: positive on every snapshot, RU is a partner of US throughout

on ICEWS18, 23.4% of test answers are visible only in the dyad view
